"Shame On Me"

I didn't think that I could break your heart
the time you really tried you say I took you for a ride
I guess it's hard to explain,
I thought that maybe you should feel the pain
but if I put the blame on you,
shame on me.
Maybe it was me who was acting foolishly
but you can't sit so innocently
I should have turned around
the minute that you put me down
but if I put the blame on you,
shame on me.
Shame on me for makin' believe
I could still have love for you
And shame on me for foolin' around
I was never thinking of you
I'll never understand
why things don't always go as planned
but if I put the blame on you,
shame on me.
