Cliff Richard

"For life"

Where do I start
How do I find
A way to explain how I'm feeling inside
These words could never be enough
To tell you just how much

I love you
With all that I am
And I need you
Please understand
From now on
Till the day that I die
You can be sure
That I'm in this love
For life

Dreams can come true
Just look at us
We've been given a chance from heaven above
With God's help we'll raise a family
And through the years you will see
I love you
More every day
I'll be with you every step of the way
From now on
Till the day that I die
You can be sure
That I'm in this love
For life

As the seasons change
Our love will remain strong
And I promise you
I promise you

I love you
More every day
I'll be with you
In the joy and the pain
From now on
Till the day that I die

You can be sure
That I'm in this love
For life
That I'm in this love
For life
That I'm in this love
For life
