Marianne, must I live for only yesterday?  
Now you've gone away, Marianne

Marianne, all I have is just a memory  
Of what you mean to me, Marianne

Here am I without a love to my name  
I shall be just following my lonely heart  
Endlessly must I be calling your name  
Telling you I am waiting  
Won't you please come back again?

Marianne, must I wait until eternity?  
Please come back to me, Marianne

Here am I without a love to my name  
I shall be just following my lonely heart  
Endlessly must I be calling your name  
Telling you I am waiting  
Won't you please come back again?

Marianne, must I wait until eternity?  
Please come back to me, Marianne  
Please come back to me, Marianne
