Right from early days from the moment I was born  
I would take my guitar in the early early mornin'  
And go down to the fields and play

Sittin' down there in the long grass strummin'  
I could see the people from miles around comin'  
To hear me sing my music and play

Well that's been my kinda life  
My kinda life, yes and I like it  
Well that's been my kinda life  
My kinda life, yes and I like it

Well that's been my kinda life yeah  
And I wouldn't spend it anywhere  
Other than sittin' down somewhere  
Playin' away my days, yeah

Well we made it to the city just me and my guitar  
That was where I found a freaky little bar  
I sat there on the stage and play

Well up came a guy who said it wasn't plastic  
He wanted me to sing away my life or something  
drastic  
But all I wanna do is play

Well that's been my kinda life  
My kinda life, yes and I like it  
Well that's been my kinda life  
My kinda life, yes and I like it

Well that's been my kinda life yeah  
And I wouldn't spend it anywhere  
Other than sittin' down somewhere  
Playin' away my days, just playin'

Play it

Well fame and fortune I've let them pass me by  
No one in the country could say I didn't try  
To turn the people and to play

You can keep all the money and the places that go with  
it  
'Cos all I want is freedom and no cash could ever get it  
All I wanna do is play

Well that's been my kinda life  
My kinda life, yes and I like it  
Well that's been my kinda life  
My kinda life, yes and I like it

That's been my kinda life yeah  
And I wouldn't spend it anywhere  
Other than sittin' down somewhere  
Playin' away my days, yeah

My kinda life, yeah  
My kinda life, yeah  
My kinda life, yeah
