Hey when you're feeling low
When the blues refuse to let you go
Just reach out for my hand
I can understand
Come share a dream with me

Hey love will found a way
It doesn't matter what the people say
Don't try to hide the way you really feel
Time can only heal
Come share a dream with me

We could rise above all the tears
All the doubts and the fears
We can make a stand here and now
Higher love
Got to learn to trust in a friend
For a peace without end
Oh come share a dream with me

Hey children of the world
Is the dream we're dreaming so absurd
Sweet reason's just a friendly smile away
'cos love is here to stay

Come share a dream with me

We could rise above all the tears
All the doubts and the fears
We can make a stand here and now
Higher love
Got to learn to trust in a friend
For a peace without end
Oh come share a dream with me

We could build castle so tall
Oh the thrill of it all
Won't you find a place in your heart

We could rise above all the tears
All the doubts and the fears
We can make a stand here and now

Higher love
Got to learn to trust in a friend
For a peace without end
Oh come share a dream with me
