They say I'll love again someday  
A true love will come my way the next time  
But after you there'll be never be a next time  
for me  
They say that I'll find happiness in someone  
else warm caress the next time  
I'll soon forget your kiss  
and heartaches such as this will  
Just be ancient history  
They say that I'm a fool to weep, that  
I won't go on losing sleep\_the next time  
And someone else will mend the heart you've  
broken\_in two\_  
But how can I fall in love the next time  
When I'm still so much in love\_  
with you  
When I'm still so much in love\_  
with you
