THIS DAY
Cliff Richard

This day could have been such an ordinary day
Could have gone in an uneventful way
Then you came into my world
And in my world you'll stay

You girl could have been such an ordinary girl
Could have been just an undiscovered pearl
Then love came with its magic
And made you my world

I know I'll always treasure
That first moment to pleasure
When we met
If I wouldn't have forever
That's one thing I would never quite forget

Your kiss could have been just an ordinary kiss
Could have been something I would never miss
But that would never be so not when I feel like this

If I woodenly forever
That's one thing I would never quite forget

This day could have been such an ordinary day
Could have gone in an uneventful way
Then you came into my world
And in my world you'll stay
