Won't you give me one more chance, baby won't you try?

Won't you give me one more chance, baby won't you try?

If you were here with me then I could explain
It doesn't have to be like this I'm to blame.

Won't you give me one more chance, baby won't you try?

Won't you give me one more chance, baby won't you try?

If I could talk to you just give me some time
I wouldn't ask you to but, I'm losing my mind.

INSTRUMENTAL

If I could talk to you just give me some time
I wouldn't ask you to but, I'm losing my mind
Give me one more chance.
