I can't stop myself from thinkin' it's a nice day
Close my eyes I feel I'm sinkin' in a nice way
Feels like a weight's been taken off my shoulders
She's a load off my mind (load off my mind)
She'll cry before she's much older
She's gone and I'm glad and I
Can't stop myself from thinkin' it's a nice day
It's a nice day, it's a nice day, a nice day.

Take myself for a walk along some country lane
Let the quiet life around me clear my brain
There's no one to laugh in my face
Or to make a fool of me (make a fool of me)
With her I couldn't keep pace
Well she's gone and I'm glad and I

Can't stop myself from thinkin' it's a nice day
It's a nice day, it's a nice day, a nice day.

I can't stop myself from thinkin' it's a nice day
I can't stop myself from thinkin' it's a nice day
I can't stop myself from thinkin' it's a nice day
I can't stop myself from thinkin' it's a nice day
(Repeat and fade).
