Ah now please Julia don't try  
To get confident and star  
Leave it like it is  
You're lovely as you are  
The only girl who can attract me an' engage  
The one that I believe  
I know you have no desire to upstage  
A single thing they give you to read.

Julia don't tell  
The chat shows and the press  
Anythin' at all  
Leave 'em all to guess  
Please say nothin' off the cuff, I couldn't bear  
Any reason not to like you  
Just stay vulnerable and clear  
Believable and sincere.

### INSTRUMENTAL

Leave the sophistry to the others  
At the moment you're my favourite.

Julia don't try  
Gettin' confident and star  
Leave it like it is  
You're lovely as you are  
The only girl who can attract me an' engage  
The one that I believe  
I know you have no desire to upstage  
A single thing they give you to read.

Oh Julia don't try  
Julia don't try  
Julia don't star.
