Oh Rayne - Rayne I miss you so
I guess I knew some day you'd go
And though I tried to say "Rayne don't go away"
You shook your head and turned away.

I look out on your silver light
It's shining still into the night
And so I sit up here and I wish you were near
Speaking my name, I'm missing you Rayne.

INSTRUMENTAL

And if you should ever find
That you want to change your mind
You know your way up here, it's always been clear
I will be yours, will you be mine?

Oh Rayne - Rayne I miss you so
I guess I knew some day you'd go
And though I tried to say "Rayne don't go away"
You shook your head and turned away.

I look out on your silver light . . .
(and fade).
