I love the way she dance
I love the way she smile
I love the way she hold me
I love the way she cry.

I love the things she say
I love the things she do
She says she will be mine
But that she won't be true.

If she would understand
I wanna be her man
I'd always love her so
I'd always let her go.

I love the way she dance
I love the way she smile
I love the way she hold me
I love the way she cry.

INSTRUMENTAL

If she would understand
I wanna be her man
I'd always love her so
I'd always let her go.

I love the way she dance
I love the way she smile
I love the way she hold me
I love the way she cry.
