A sweet occasion such as this  
Another chance to reminisce  
And though together we have grown  
It's magical how time has flown.

Remember at the outset  
A very long while ago?  
You were just a schoolgirl  
And I was your big hello.

But time, the magician played a few old tricks on us  
Time, the magician played a few old tricks on us.

Remember when you first said  
That you would love me always  
And how you fascinated  
Me in so many ways?

But time, the magician played a few old tricks on us  
Time, the magician played a few old tricks on us.

A sweet occasion such as this  
Another chance to reminisce

And though together we have grown  
It's magical how time has flown.

Remember at the outset  
A very long while ago?  
You were just a schoolgirl  
And I was your big hello.

But time, the magician played a few old tricks on us  
Time, the magician played a few old tricks on us.

Time, the magician played a few old tricks on us  
Time, the magician played a few old tricks on us  
Time, the magician played a few old tricks on us  
Time, the magician played a few old tricks on us  
(Repeat and fade).
