This water-wheel keeps turning round  
I must have told it a thousands times  
There is no point in turning round  
I'm on my own  
Water-wheel.

This water-wheel who laughs at me  
And seems to say scornfully  
She's never coming back again  
She's gone away  
Water-wheel.

INSTRUMENTAL

But water-wheel you know we were  
Kind to you and I was kind to her  
But still you turn and laugh at me  
Why don't you stop  
Water-wheel, water-wheel  
Water-wheel, water-wheel . . .
