You are all I ever wanted
All my life I dreamed of you
Everything I ever wanted
All came true when I found you.

I waited a long time
To find a girl as sweet as you
And then it took no time
To see the sun come shining through.

You are all I ever dreamed of
All my life I've wanted you
Everything I ever dreamed of
All came true when I found you.

INSTRUMENTAL

I waited a long time
To find a girl as sweet as you
And then it took no time
To see the sun come shining through.

You are all I ever dreamed of
All my life I've wanted you
Everything I ever dreamed of
All came true when I found you.
