"Way to Normal"

Visit "[Way to Normal](#)" on MotoLyrics.com

Is this the way to normal?
Is this the way to normal?

Show me the way to normal
Show me the way to normal
Show me the way to normal
Is this the way to normal?

You can blame it on the President
But what if it was you
Who was the White House resident?
Or could you save the starving children?
When there's so much else to do
With all the problems of the world
Coming down on you

So this is the way
This is the way to normal
Show me the way
Show me the way to normal
Alright

You can say my music's bullshit
In your uppity review
But if it was you here at this keyboard
With all the people waiting
To hear your next CD
And throw you in the garbage
Or hail your masterpiece

So show me the way
Show me the way to normal
This is the way
This is the way to normal
Alright

And all these corporations poisoning our air
The children sad and hungry
But they don't even care
Let's get together people
We've got problems here to solve
Let's make this world a better place

Before there is no world at

Is this is the way to normal?

Is this is the way to normal?

Show me the way to normal

Show me the way to normal

Show me the way to normal

Show me the way to normal
