Anne has left you marks here  
Anne has left you marks here  
Anne has left you marks of love and hope  
One is on the floor with laughter rolling  
One is on the floor and one disclosed  
Never again would you be told

As Anne we loved you  
Anne we wouldn't judge you  
Anything you might do  
Anne we've lost you and we think of you  
Anytime you could choose

Look whose at your side now  
Look whose at your side now  
Look whose at your side now, use them both  
One is on the floor with laughter rolling  
One is on the floor and one disclosed  
Never again would you be told

As Anne we loved you  
Anne we wouldn't judge you  
Anything you might do  
Anne we've lost you and we think of you  
Anytime you could choose

Anne has left your memory  
Anne has left your memory  
Anne has left your memory sharp and cloaked  
One is on the floor with laughter rolling  
One is on the floor and one disclosed  
Never again would you be told

As Anne we loved you  
Anne we wouldn't judge you  
Anything you might do  
Anne we've lost you and we think of you  
Anytime you could choose  
One is for you Anne, oh I  
One is for you Anne
