I'd like to know completely  
What others so discreetly  
Talk about when they leave me  
Not that I notice when they're gone

It's eerie and so scary  
I don't know who to marry  
Your sister came to bait me  
But I love it when you blink your eyes

I've showed me once to often  
You'd never know how often  
I've pictured you in coffins  
My baby in a coffin

But I love it when you blink your eyes  
Oh I, I want to know my body  
I want this out not in me  
I want no other leakage

I want to know no secrets showed  
I leave, oh I leave, now I leave care  
Free of distortions, free of distortions  
Free of distortions
