Goodnight, Georgie, Goodnight, Grace
You know the sandman's on his way
Beating a path down the alleyway
Beginning to laugh in his favorites place
Here he comes and he's dreaming,
Dreaming for us, darling.
Goodnight Georgie, goodnight queen
Now you know what can come from dreams
All that you ask for comes from demons
All that you ask for comes for free
So now hush, as his dreaming,
Dreaming for us, darling
Come on my liege just roll him over
Come on lip only makes him bolder
Come in and slit him, I've got tokens
Now we know what's good for us darling
Shall we dance?
Ssh, now hush as he's dreaming for us darling.
Come on my liege just roll him over
Come on your lip only makes him bolder
Come in and slit him
I've got tokens.
Now we know what's good for us darling.
Oh my darling, shall we dance?
