Kathy in the sun, Kathy has just come
No other family warmth binds your home
And people in the know are just people in the know
Rush them on the sands and all go home, it's
goodnight
Candleman would never
Oh, candleman would never mind

Oh, Lesters on the ropes, oh, Lester and the hoax
No other family warmth just binds your home
And people in the shows are just people in the shows
Rush them on the sands and all go home, its goodnight
My candleman would never
Oh, candleman would never mind

(Yea)
Sonny knows you know, you know
Sonny knows you know, you know what has begun
(Yea)
Sonny come, come, come up the front
(Yea)

All of the elephants came out, now you can dismount
With the family warmth that binds your house
The people in the know are just people in the know
Rush them on the sands and all go home, its goodnight
A candleman would never
A candleman would never mind
