Alone in the saddle
My mind in a haze
Missing my family
And counting the days
This road is a long one
And if I'm overdue
I'll be dreaming of Christmas with you
I know this Christmas
Every wish won't come true
But I'll be dreaming of Christmas with you

I'm counting my blessings, treasures untold
The millions of moments more precious than gold
I can ride on those memories, and they'll carry me
home
And I won't spend this Christmas alone
I know this Christmas
Every wish won't come true
But I'll be dreaming of Christmas with you

Somehow we can all get together
Where our love is thinking that we're fine
Celebrating these moments forever
Even if I'm only with you here in my mind
I know this Christmas
Every wish won't come true
But I'll be dreaming of Christmas with you

Though I won't miss this Christmas
And even if I do
I'll be dreaming of Christmas with you
I'll be spending this Christmas with you
