The sheer sincere rap engineer's here  
And wherever I go yo, you know my man Jay's near  
More than up to par, styles indicate who we are  
Like the gas-filled car, we're gonna go far  
Business we've been takin care of it I'm swearin it  
And we're aware of it cause our bank books are bearin  
it  
Every theme is extreme and supreme no bluff  
And every is slap and oh so tough  
But there's a time that I find yeah and it comes like a  
season  
To wind down for no other reason than it's pleasin  
To take a break from employment and let loose  
And reduce the pressue for sure pure enjoyment  
We got the time so let's make it a good one  
Soon we'll say back to the tunes and being top guns  
And yet we'll never regret and say this is what we  
should've done  
The clock she runs c'mon an let's have fun

Let's jump in the rides and cruise  
Destination somplace a space anywhere we choose  
Laughter food and good times'll never fail ya  
To hell with intoxicating paraphenalia  
Well ya cold wanna slap on slow song, square up  
Pair up, stare down, hair down, sex long and strong  
Keep on and don't quit it if it's F-U-N, hit it  
Get it, but don't neglect preventions and limits  
We can eve lounge in the crib watch some movies  
starring Arnold Schwarzeneggar, bumrush the  
refridgerator  
Yo Jay pass the Pringles, I want a bit  
(Cake Jaz, cake Jaz, gimme some of it)  
Greenbacks every track that's what we're gonna get  
Go out and spend a ton of it just for the fun of it  
The room's vibratin, cause I can't stop  
Yeah the girls are in the back blastin that good ol hip-  
hop  
Call up some friends disturb the peace  
Play a smash by Jaz or Jay-Z's dope release  
Like a Dove Bar freshly dipped so you can hook

and sling and slip and skip the beat is equipped  
To be twice as nice concise and precise to suffice  
(The crowd) who resemble recipients of a jewelry heist  
A group of positive people and we're proud to be  
The way we are and we know just how to be  
Dignity eloquence good sense  
And we'll all have a ball y'all, a slammin experience  
So let's talk and if it's humorous let's laugh  
Life's too short to be negative let's have fun

Let's have fun y'all let's have it  
Take good times like goodies and grab it  
Stop firin stash the iron and groove  
Because the track impacts like a Karl Malone power  
move  
Rhymes sharper than a ginsu knife  
(Are you serious?) Word... (I-I-life)  
Get some (cause the beat ain't bum)  
(It'll never break yo heat but it'll buss yo' eardrum)  
This a symbold a sign a good omen  
To create fun is truely to create a good moment  
So make noise and rejoice and keep control of yourself  
Be cool be safe be wise and watch your health  
Sometimes I get lost I gotta break off from the crew  
Dinner jackets and tie and shined up shoes  
Reservation a table for two  
Candlelight fine cuisine what a scene me and you  
Maitre'd yo, do somethin smooth for us  
Kick the R&B or, jazz with a smooth chorus  
And as the music plays is everything OK?  
Yes honey? Wouldn't have it any other way  
Holdin hands bein intimate  
Love is the feelin and I'm into it  
What we got will not ever diminish  
I'm yours forevermore to endure and replenish  
Buss the motion me and my main partner  
Get along, us two? Man it ain't hard  
Check the signals on a nightlike tonight  
Car waxed up and system blastin like dynamite  
Bass flows through ya body before you seeme come  
Tank killed with the no-lead premium  
The boys with poise in high demand and  
Heavy as lead, gear is outstandin  
(Where will we go?) Yo I don't know  
But it'll be real (real what?) high potent  
to say the least it'll never be hum drum  
Frum sun to sun sleep when we're done let's have fun
