

Clint Black "Our Kind Of Love"

Visit "[Our Kind Of Love](#)" on MotoLyrics.com

Long ago with a younger partner
Always in love, but a love for sure
Their hearts were lost out in the shuffle
Of a hook & wing on a sawdust floor

Now they hold their own out on the liners
They're always prime for something slow
And you won't find them changin' partners
Love will keep in step, keepin' up with a country set
It's our kind of love I'll bet they're together everywhere
they go

Now they're on in years, they don't need a reason
All the lights are on for the same old thing
When they call, "Let's dance", their song will still be
playin'
Till the end of time their love'll be in full swing

And they hold their own out on the liners
They're always prime for something slow

And you won't find them changin' partners
Love will keep in step, keepin' up with a country set
It's our kind of love I'll bet they're together everywhere
they go

[steel - harmonica]

Love will keep in step, keepin' up with a country set
It's our kind of love I'll bet they're together everywhere
they go
It's our kind of love I'll bet they're together everywhere
they go

[guitar - fiddle - steel - harmonica]
