No sun on the Rockies  
Not even the light of day  
I feel that old cabin fever comin' on  
But I know where I'll be  
When lady luck finally blows my way  
She'll put the wind in my sails & I'll be gone

It won't be long before my ship comes in  
Gonna sail right out of Colorado  
Catch a ride on a warm trade wind  
Where no one knows  
She'll find me waitin' when my ship comes in  
Gonna board and go whichever way the wind blows...  
I'll be off to find myself once again  
And where no one knows  
When my ship comes in

Maybe I'm only dreamin' but it sure seems real  
Somehow the wind doesn't chill quite to the bone

Or could it just be the fever  
I'm runnin' on an uneven keel  
I'm losin sight of why I'm up here alone....

It won't be long before my ship comes in  
Gonna sail right out of Colorado  
Catch a ride on a warm trade wind  
Where no one knows  
She'll find me waitin' when my ship comes in  
Gonna board and go whichever way the wind blows...  
I'll be off to find myself once again  
And where no one knows  
When my ship comes in

It won't be long before my ship comes in  
Where no one knows  
She'll find me waitin' when my ship comes in  
Where no one knows
