Have you ever thought that the whole world's against
you?

And the drugs you take lose all their flare?

And making it in life is too much a cost?

And life's meaning seems so fucking lost?

Well don't give up, not just yet.

Live the next day, don't forget:

That we all have our valleys

And mountains to climb.

Behind the darkest clouds,

The sun surely shines.

Just cast your burdens aside.

Don't give up!

Just go along with the tide.

Don't give up!

And don't worry what's next.

Live for the moment,

Believe this text.

And don't give up,

Your best is next.

Have you ever felt there is no helping hand?

And you feel lower than a grain of sand?

And the luck you hoped for never came?

And all you feel is a world of shame?

Well don't give in, not just yet.

Your next battle, victory's set.

And when the valley is crossed,

And the mountain is climbed,

Those dark clouds recede,

On you the sun will shine.
