The keys  
Flash on the Table  
Picked up and passed to my hand as I'm able  
To slide a coat on my shoulders  
As I duck out the door within a minutes time  
My feet  
Feel in no condition  
My hand  
Turns over the ignition  
Never before in my life have I felt this alive  
A deep breathe  
Pushes me forward  
I leave with  
Nothing Ignore  
The gas light  
I backed out to the street  
I need this  
Probably more than you do  
The chances I'm taking with you  
The chances I'm taking tonight

And as for right now we'll make the best of things  
And we'll smile and we'll laugh and we'll lie  
When all we know is this  
And this is nothing  
From here on out  
We'll make the best of things  
As you calmly sit back  
And relax and rely on us always  
On us always  
On us always  
On us always

We didn't need conversation to lead us  
We were both fast on our feet and had a few ideas  
Hesitant and patient  
We're not that kind  
It drags me in and it draws me over  
We've come so far to just sit and go no where  
We've come so far to just sit and throw it all aside

And I appologize for any injuries I've caused,  
Things you've lost, and so much more  
And I appologize for, staying quiet when we should  
have talked,  
Running forward when we should have walked,  
Not trying any harder, and giving up
