I can tell you anything at all
(But you'd never laugh at me)
Didn't have to look before I fall
(Cause you'd always catch me)
Anything I did I had a friend
(And you always had me)
And we made a pact until the end
Together we'd always be

But now, I'm gone,
(But now I that I'm gone girl tell me)
Are you moving on
(Are you moving on girl)

I'm living life
I'm feeling fine
And I got all that I wanted
I rocked the world
Yeah with my girls
But we don't ever flaunt it
But there's something that will always get me down
Why aren't you here with me now

I remember something everyday
(I'm always quoting you)
About the way we laugh or things you say
(Cause it's always so true)
Everthing you dream I dream for you
(And you always had me)
And to know you felt the same way too
Together we'd always be

But now, I'm gone,
(But now I that I'm gone girl tell me)
Are you moving on
(Are you moving on girl)

I'm living life
I'm feeling fine
And I got all that I wanted
I rocked the world

Yeah with my girls
But we don't ever flaunt it
But there's something that will always get me down
Why aren't you here with me now

And I know that u feeling the same
(Oh oh oh oh)
And like I traded you for the fame
(Oh oh oh oh)
And you probably think that I won't be back again
(Oh oh oh oh)
And the thoughts always on my brain
(Drives me insane)
Cause you got to know I'm out here

I'm living life
I'm feeling fine
And I got all that I wanted
(All that i wanted)
I rocked the world
Yeah with my girls
(With my girls)
But we don't ever flaunt it
(No we don't)
But there's something that will always get me down
Why aren't you here with me now
(Oh Oh Oh Oh Oh Oh)
Why aren't you here with me now
(Oh Oh Oh Oh Oh Oh)
Why aren't you here with me now
(Oh Oh Oh Oh Oh Oh)
Why aren't you here with me now
