First impression  
You must have thought  
Typical and sweet  
Glasses on, hair pulled back  
Very misleading

I'm not the girl  
You thought I was  
You got no place to hide  
No place to run

How do you like me so far  
Did you think I was the girl next door  
Now you say I'm gonna be a rock star  
You never know what's in stored  
How do you like me so far  
I'm gonna play some of my guitar  
I'm unpredictable and that's hard  
You never know what's in stored

First impression  
You don't believe  
Read between the lines  
A beautiful catastrophe  
See it in my eyes

I'm not the girl  
You thought I'd be  
Sometimes I'm shy  
Sometimes I get crazy

How do you like me so far  
Did you think I was the girl next door  
Now you say I'm gonna be a rock star  
You never know what's in stored  
How do you like me so far  
I'm gonna play some of my guitar  
I'm unpredictable and that's hard  
You never know what's in stored
