How can it be we're with you now
You've made our dreams come true
You've helped us put us here
For that we are so sincere

By the love that we'll have
Sent for you
That moment we came on stage
Some how we always knew
That we've been waiting for you

Tell me why
Does it feel so incredible
Where the light
Shine on me it's so beautiful
We've been searching
For all of our lives
All the love that you all provide
And you're all that we need
You're incredible
You're incredible

Look at our fans screaming like that
Look what you've given us
The life that is now complete
For what this is such a treat

Day and day out singing for you
The moment we came on stage
And we'd only heard of love
Till you showed us what it was

Tell me why
Does it feel so incredible
(Why does it feel)
Where the light
Shine on me it's so beautiful
(Beautiful)
We've been searching
For all of our lives (our lives)
All the love that you all provide

And you're all (and you're all)
That we need (that we need)
You're incredible

Don't you be scared to follow your dreams to come true
Listen to your heart and you'll get through

Tell me why
Does it feel so incredible
(So incredible)
Where the light (where the light)
Shine on me (shines me)
It's so beautiful (it's so beautiful)
We've been searching
For all of our lives (our lives)
All the love that you all provide
And you're all that we need
This is wild this real

And your love is real
You're incredible
You're incredible
Yeah, yeah
You're incredible
You're incredible
