I turned the lights off in my room tonight
as my thoughts turned slowly to a dream
a single star is frozen, shining bright
for all that is and everything that could be
in this life i will believe in my time is waiting for me
just to open my eyes follow my heart and to give it my
all cause i know that each and every moment is a
memory in the making as i wait (as i wait)
for my time yeah
waking up i feel the sun light shine (shine)
gently through the window where i live
moonlight clouds are far behind me now
and now i know i've got so much more to give
in this life
i will believe oh yeah my time is waiting for me just to
open my eyes follow my heart and to give it my all (give
it my all) cause i know (i know) that each and every
moment is a memory in the making as i wait (as i wait)
for my time (my time) a star is shining bright in my time
is waiting in the night somewhere in the night my time
is waiting for me just to shine
my time is waiting for me just to open my eyes follow
my heart and to give it my all cause i know that each
and every moment is a memory in the making as i wait
for my time oh yea for my time yeah for my time oh
yeah
