I played the song
Now it drives me crazy
I've run the race
Now I'm way too lazy

This love of ours
Is so sad it makes me laugh today
Seems a little different
Hard to say
But it look like the end

Time's up
Promise this time I'm getting off
Better we slam the door shut
Didn't you know
If nothing changes
Nothing changes
Time's up
Promise this time I'm getting off
Better we turn the lights off
Love is a train
We wait for it
Even when it's gone

We've surfed the wave
'Til we've hit the short end
We've squeezed the fruit
'Til there's no more juice left

We're both so good,
Good at keeping up the lie, we can
Get it in perspective
Kiss my lips
Life is what we make it

Time's up
Promise this time I'm getting off
Better we slam the door shut,
Didn't you know, if nothing changes
Nothing changes
Time's up

Promise this time I'm getting off
Better we turn the lights off
Love is a train
We wait for it
Even when it's gone

As I'm waving you goodbye
I want you to smile
Save the picture in your frame
File it right next to my name
I'm willing to die
But love willing to try
But not willing to let love
I know that this cakes already baked
Now its burning burning

We can get it in perspective
Kiss my lips
Life is what we make it

Time's up
Promise this time I'm getting off
Better we slam the door shut
Didn't you know, if nothing changes
Nothing changes
Time's up
Promise this time I'm getting off
Better we turn the lights off
Love is a train
We wait for it
Even when it's gone.
Time's up
Promise this time I'm getting off
Better we turn the lights off
Love is a train
We wait for it
Even when it's gone
