How do I even begin
you're all up under my skin
Before I speak, I hear you instead
Do u think u could leave
A little air I could breathe
Can't your voice of my head
Is there nothing that you don't know everything about
All this I told you so is something I could live without

Chorus

You tell me how to think and you tell me how to live
You tell me how to take, and tell me how to give
I guess you wrote that book on what a girl's supposed
to be
But you don't know what it like to be me
To be me, to be me
what it's like to be me
Yeahhhhhhhhhh

So have you ever been wrong
Can you remember that long
Or should I rephrase that question
Can you look at yourself
like you do with everyone else
Can I make one suggestion?
Just for once in your life could you listen to someone
else
I know you might get confused hearing someone
beside your self

Chorus

You tell me how to think and you tell me how to live
You tell me how to take, and tell me how to give
I guess you wrote that book on what a girl's supposed
to be
But you don't know what it like to be me
To be me, to be me
what it's like to be me
Yeahhhhhhhhhh

I think it's time to the position

Do I have to scream out or sign a petition
To get you to listen yeahhhhhhhhhhhh

Chorus

You tell me how to think and you tell me how to live
You tell me how to take, and tell me how to give
I guess you wrote that book on what a girl's supposed
to be
But you dont know what it like to be me
To be me, to be me
what its like to be me

You dont know what its like to be me

Chorus

You tell me how to think and you tell me how to live
You tell me how to take, and tell me how to give
I guess you wrote that book on what a girl's supposed
to be
But you dont know what it like to be me
To be me, to be me
what its like to be me yeahhh

TO BE ME !!!!!!!!
