Destinee:

You're crazy lookin' eyes tonight  
You're head's up in the sky tonight  
And I am not gonna fight, I'm over and I'm out

You're kinda freaking out you see,  
A schizophrenic next to me  
Who are you tryin' to be, and what are you about  
I'm over and I'm out

Chorus:

You know I kinda sorta wish you  
Woulda coulda maybe been that boy  
You need to know I  
Know you never, yea you did  
You never meant to be that boy  
But every little word was true  
And now I got a word for you  
But I'm not aloud to say it

(Yea)

Paris:

You're always messin' up and stuff  
Heard you screamin' down the phone enough (you  
wanna fight)  
You think that makes you tough  
I'm over and I'm out

Stupid me to think that we could work  
A dreams a dream just like a jerks a jerk  
You drag us through the dirt  
And I'm over and I'm out

Chorus:

You know I kinda sorta wish you  
Woulda coulda maybe been that boy (who me)  
You need to know I  
Know you never, yea you did  
You never meant to be that boy  
But every little word was true

And now I got a word for you  
But I'm not aloud to say it

Bridge:  
Ahh, let's catch a cloud and fly  
high above the city tonight  
straight into something  
(No one can tell us we're wrong,  
No one can tell us we don't belong)

I GOT A WORD FOR YOU!  
Psych!  
I GOT A WORD FOR YOU!  
Psych!  
I GOT A WORD FOR YOU!  
Psych!  
I GOT A WORD FOR YOU!  
Psych!  
I GOT A WORD FOR YOU!

(I kinda wish you shoulda maybe coulda been that boy)

Chrous 2:  
No you never, yes you did, you never meant to mean  
that  
And you should of wish you could of maybe been that  
No you never, yes you did, you never meant to mean  
that  
And you should of wish you could of maybe been that  
You break up, you break down oh come on  
Is that the tempermental best you can do  
Well I got a word for you.....

Chorus:  
You know I kinda should of wish you  
Would of could of maybe been that boy  
You need to know I  
Know you never, yea you did  
You never meant to be that boy  
But every little word was true  
And now I got a word for you  
But I'm not aloud to say it
