People say she's all that and more
And I don't know why
What's so special about that girl
Who walks with her head held high
Nose in the sky
Always talking trash on her girls
Following her 'round like groupies
So caddie (ha)
Who the heck does she think she is
The person I once knew
Someone who
Who would always say

Used to say you can change what's on the outside
So where's the girl that I would look up to
Used to say that what counts is on the inside
So if it's true tell me what happened to you

Don't know where the girl is I like
Someone that I
Poured my heart and soul out to
Used to think the popular girls
Were so mean
Now I traitor is all I see
Everyone knows we used to be
Two of a kind
Now that vision is out of your mind
Doesn't matter what she once said
It's all in her head
Now your words on me

Used to say you can change what's on the outside

So where's the girl that I would look up to
Used to say that what counts is on the inside
So if it's true tell me what happened to you

You were the one I counted on for everything
So why did you all of sudden
Turn your back on me?

What happened to that girl?
What happened to
All the things you told me
What happened to that girl
What happened to
All the things you told me

Used to say you can change what's on the outside
(used to say)
So where's the girl that I would look up to (look up to)
Used to say that what counts is on the inside (you can
change)
So if it's true tell me what happened to you (what's on
the inside)
Used to say you can change what's on the outside
So where's the girl that I would look up to (look up to)
Used to say that what counts is on the inside (can you
tell me?)
So if it's true tell me what happened to you
