Got goals, got dreams  
Regurgitate lines that hide what i think  
Burn away our childhood fears  
Fill the gaps with a round of beer

[Chorus]

Does it matter who is hurting?  
Look at the scars in my skin  
Marks in my mind, holes in my soul  
Why won't everybody just leave me alone?

16,23

Caught in the underthrow  
White boy ain't who he wants to be  
Tuned tune tuned radio

[Chorus]

Cause it said stainless on the blade  
But young cuts never go away  
Raised in poison air, it taught us not to care  
But you can't control the climate only what you let it  
affect  
And it can't hurt us anymore  
They won't hurt us anymore

Just who do you think your're fooling?  
Look at the scars in your skin  
She's over your head you can't grab hold  
Why won't everybody just...  
Just who do you think you're pushing?  
Look at the scars in our skin  
Marks in our minds, holes in our souls  
Why won't everybody just leave us alone?  
LEAVE US ALONE!
