Your face is slammed against the cold and moisty wall  
Blood is dripping from your eyes  
My godly knife cuts from your neck to ass  
Rub my genitalia against your spine  
Sensational stench is breaking free  
I love to be inside of you  
Feeling your warm and bloody entrails against my  
scrotum  
Your screams turn into gurgling sounds as my knife  
ramms your  
Throat  
An insatiable urge to lick your red juices overcomes me

My fingers welcome your gory innards  
I spit on my dick and now I masturbate  
My tongue now finds it's way into your neck  
Like licking a clit it spreads a smell

The o so sweet smell of human blood fills the air

I sniff and sniff until it tickles my nostrils  
In paranoia I dwell  
Now far from the real world  
I find this state so swell  
Swell
