No ground for pity

Did this to myself

I am in hell

O sweet torment embrace me

I am in hell

This is it, this is all

I am in hell

Suffer equals pleasure

I am in hell

Brings a feeling one can't measure

Equilibrium

[Chorus x2]

Not to be reached

I am in hell

This is where I want to be

I am in hell

Chosen path, to be walked till the end

If you don't follow, leave me alone

Misery tastes sweet
