A digital murder

Programmed by mathematical terrorists

Outside of mortal bounds

Silently hacking

A binary plague

Serving information

This is the time of the hacker

This is the code of the hacker

This is the hacker

An algebra of fear

Within the language of machines

Uninfringed my human emotions

Within global systems

Silently moving

A digital maze

Cutting information

This is the way of the hacker

This is the extremity of the hacker

This is the hacker

Protect now or be erased forever

A binary virus

Unleashed by subversive programmers

Inside corporate systems

Silently eating

The endemic wave

Erasing information

This is the sign of the hacker

This is the genius of the hacker

This is the hacker

Learn now

Or be cut down forever
