I noticed your name when you answered the phone.
I'm always obsessed by the details, but it feels like I
know it all
But not where you went where you went and who you
called.

I knew from the start you'd be breaking my heart.
I'd still like to know you cause I know it seems like a lot
of fun.
Do you care if I work or run?
Did we collide?
Or were you only dancing by my side?
Did I see you smile?
Or was it just a thing inside my mind?
You seem like someone who could stay for a while.
I'm only afraid I would lose but I try
To be positive with the way I am and life I live.
Did we collide?
Or were you only dancing by my side?
Did I see you smile?
Or was it just a thing inside my mind?
It's getting later. Maybe too late to even talk to him.
Do we have anything in common?
Do we have things enough to talk about?
What kind of movies does he like?
And is it even worth the humiliation to walk right up to
him?
Oh, he's leaving now. With that other girl. I guess it's
too late.
Did we collide?
Or were you only dancing by my side?
Did I see you smile?
Or was it just a thing inside my mind?

I know he's only dancing by my side.
It's always just a thing inside my mind.
