Reggae style... Bass line starts to move

It's that reggae style, that makes me want to move
It's that feeling inside, that skankin' rasta groove
And it feels so right, when the bass line starts to move

Believe me we can kick the down easy
Deliverin' the sure sound weekly
Everyday record playing north south east west
Blessed with the rhythm and the bass now
What's that we get you movin' like a buss pass
Shave off your excess stress like a mustache
Feel it for the first time then we come back
Out your seat like your sittin' on a thumb tack
Saxophone drum blown horn over dub track
Love that wikety rockin' reggae bump that
Sound that you stole like a hub cap
So many chumps that know but the untapped
Soul is the one that shows where the suns at
The rest lack spirit do your ears lack hearin'?
Then read the lips it's all in your apparel
Kids are always tryin' to call it in like Collin Ferrel yo

It's that reggae style, that makes me want to move
It's that feeling inside, that skankin' rasta groove
And it feels so right, when the bass line starts to move

One for the bass two for the treble
You don't come for taste you came to get sevel
Hand to the face, you aint' on a level
Here's a penny for your thoughts though in the
crossroad
Stock lock loaded, ready to go
Like the dice in your hand man we ready to roll
Bass line bumpin' all the way to the state line
Coming from the great sunshine state CA
Why would you want to hate my
Or clown others try to move their bass line
See the art in it, don't and stay blind
I won't take that time try to change your mind
The best fit for us eclectic
Come up with the styles buck wild but effective

Fresher than the ice pack linin' your head when
Your bobbin your neck so much you forgot where your
head went

It's that reggae style, that makes me want to move
It's that feeling inside, that skankin' rasta groove
And it feels so right, when the bass line starts to move

We got the sound to make you feel alright
Make your body move and keep you up all night
It's easy, easy
It's a west coast party, if you're feeling this song
Come on everybody keep movin' along
It's alright, alright

It's that reggae style, that makes me want to move
It's that feeling inside, that skankin' rasta groove
And it feels so right, when the bass line starts to move
