Every now and then your mouth starts moving
Move along he's nothing worth seeing
Somebody else can be much better
Don't waste your time it's now or never
Is that what...???
????
I don' know what you see in him
His head is lost in the clouds again

I know you deserve much better
Couldn't tell you if I'll ever have all those things to give
you
That will show you how much i want you

So for now you have to take my word
It's not much but I'll give you the world
If it was ever mine but I won't waste your time
Don't keep like does rich kids do.[?]

I know you deserve much better
Couldn't tell you if I'll ever have those things to give
you
That will show you how much I want

You can tell your mom and dad
I'm going to be richer then them.
You can tell your pretty friends
They're ugly. So ugly.
You can tell your sister
I'm sorry I missed her.
On a second thought don't say a word
'Cause I'm not going to be like them

I want you
