Chorus

Hold me now

'Cause all I want is you

Hold me now

Say you want me too

Take my hand

And lead my to fairy land

Where I can feel

That love is real

I'll make you understand

Dance with me

Close to you is where I wanna be

All through the night

Let's do it right

You gotta know that you are free to

Chorus

Don't let go

You just have to come and show

Tenderness

A lovin' kiss

Now it's time to let me know

Feel my heart

Beating for you from the start

Touch me there

Make a pair

Say we'll be apart again

Chorus

You gotta know

That you are free

Free to hold me now
