I need your love
And I'm feeling like the fire
I need your soul
And I'm men who needs the love

I need your heart
My life is like a sunrise
I need your love
All my dreams are ever you...

Looking in your eyes
I just discovered only love
Looking in your eyes
I know you really love me

Looking in your eyes
I just discovered only love
Looking in your eyes
I know you really love me...

Living in your eyes
Don't left tonight this thing we do
Living in your eyes
Don't leave me please

Living in your eyes
Don't left tonight this thing we do
Living in your eyes
I'm feeling free...

I need you tonight
Cause I'm feeling down
Please come back tonight...
