Now the bottoms dropped out, oh no.  
The sight of what I live for, I  
I fall into loving arms and you never leave.  
Or has my time just run out?  
You know I need this, just one more chance I'll get it  
right.  
This is the the last time.

And I say, I say I love you and this bond will never break  
And you say I love you too and none of that is ever  
gonna change.  
So if I fall down, give my heart to you, we will be set  
free.  
And you'll set me free, please set me free.  
Just set me free, just set me free, yeah.

Never have I known to love or why it is,  
But it's gotta be, has to be, gotta be, has to be, the way  
you are to me.  
Never have I seemed to love or why it is,  
But it's gotta be, has to be, gotta be, has to be, it's  
gotta be, has to be,  
Why I am

And I say, I say I love you and this bond will never break  
And you say I love you too and none of that is ever  
gonna change.  
So if I fall down, give my heart to you, we will be set  
free.  
And you'll set me free, please set me free, yeah.  
You gotta set me free, yeah.

Our time is running out, running out, running out.  
[Your love is beautiful] Lift me up now.  
[Your love is beautiful] The ground seems so far from  
here.  
[Your love is]
