Freedom doesn't lie inside your hands it lies inside  
your head Blood on your shoes, you'll dance for them  
until one day you end up dead One FIST One VOICE  
Gunna make a lot of noise One STAND One FIGHT One  
CHOICE Freedom is so close to you, you think that  
you've already won ?cause you got your flag but  
they've got your vote (shot dead with your own gun)  
One FIST One Voice Gunna make a lot of noise One  
STAND One FIGHT One CHOICE ..... conformism.....  
class illusion.....victims of corporate intrusion..... latest  
fashion..... television..... discrimination..... burger  
syndrome.... you call this freedom?
