"I want a Corvette!
I thought you would.
I want a Pontiac too!
Okay, we'll have the usual

two-car garage."

Compare the six days of the book of Genesis
To the four billion years of geologic time
On this scale, one day equals about 666 million years.
All day Monday, until Tuesday noon,
Creation was busy getting the Earth going.
Life began on Tuesday noon,
And the beautiful organic wholeness of it
developed over the next four days.
At 4 PM Saturday the big reptiles came;
Five hours later, when the redwoods appeared,
there were no more big reptiles.

At three minutes before midnight, man appeared.
At one-fourth of a second before midnight, Christ
revolted.
At one-fortieth of a second before midnight, the
Industrial Revolution began.

We are surrounded by people who think
that what we have been doing
for one-fortieth of a second
can go on indefinitely.
They are considered normal.
But they are Stark. Raving. Mad.
