Intro:

All I need is a good, good friend
All I need is a good, good friend

Verse 1:

Oh this life is so strange, you need a sense of humor
The maker is half caretaker and half joker
We are not broken ones,
Just shattered pieces of the same bright sun
Trying to figure out which way to run
And we can't do this alone

Chorus:

All I need is a good, good friend
To get me through this
All I need is a good, good friend
To help me out when I'm burning down
When I'm all stressed out
When I'm underwhelmed

Verse 2:

Life is a playground, but it takes a lot of work
So you better learn to love, or it will tear you apart
Cause in the end we are measured by the size of our
heart
So we can't do this alone
Some of us are laughing,
And some of us are chocking
Some of us can teach till every bone's been broken
All the while The Maker just sits up joking
You never really were alone

Chorus:

All I need is a good, good friend
To get me through this
All I need is a good, good friend
To help me out when I'm burning down
When I'm all stretched out
Thank you for being around
