Meet me where you're going, cuz I wanna be going
where you are. Teach me what you're knowing,

cuz I wanna be knowing who you are.

Run away with me, yeah, let's get married.
Will you be the rest of my life?
Every day with you I say "I do",
and it means so much more each time.

I love you and how.
Won't leave you alone.
Will you be my home now?
And I'll be your home.

Pray God protect us.
Pray God for guidance.
Make us selfless and rich in soul.

Cuz when we grow old, Love,
I'll just love you more, Love,
through the sunshine and through the cold.

I'm not afraid, come fire, come rain,
with you here by my side.
I found boundless love for you
when I lost my foolish pride.

Thank you for patience.
Thank you for-giveness.
Thank you for spending this time with me.
Meet me where you're going,
cuz I wanna be going wherever you'll be.

Run away with me, yeah, let's get married.
Will you be the rest of my life?
Every day with you I say "I do",
and it means so much more each time.
