Far away, invaders, watching us, from high above
Aim is set, us humanoids, scanning out, mother earth
Invisible, among us, flesh and blood, terrestrials
Side by side, friend and foe, creeping up, creeping in

D.n.a patterns copied in millions
Replicants tied to their everlong mission

Dreaming of faces
Leaving traces
Know, know them so well... shapeshifter

Far too late, the warning, overrun, mankind lost
Pray to die, we never will, cloning starts, the game is
set

D.n.a patterns copied in millions
Replicants tied to their everlong mission

Dreaming of faces
Leaving traces
Know, know them so well
Shapeshifter

Dreaming of faces
Leaving traces
Know, know them so well
Shapeshifter

Everyday faces
Leaving traces

Dreaming of faces
Leaving traces
Know, know them so well
Shapeshifter
