Don't leave me alone now
without a clue and lost
break down those walls around me
help me like that to get to you

let me be your companion once
be the guide who will lead me
because im already travelling for a long time
and im so tired come and liberate me

take me with you to your country
full of music and dreams
lead me to your country
let me live in your clouds

Don't leave me alone now
take my hand and show me
the way that leads to you only
help me like that to get to you

take me with you to your country
full of music and dreams
lead me to your country
let me live in your clouds

Don't leave me alone now
without a clue and lost
break down those walls around me
help me like that to get to you

Don't leave me alone now
without a clue and lost
don't leave me alone now
without a clue and lost
